TestoQuench™ for Women
Hormone Specific Formulation™

DESCRIPTION
TestoQuench™ for Women, provided by Douglas Laboratories® is a Hormone Specific Formulation™ of anti-androgens and androgen antagonists. This combination is designed to support the healthy function of skin, hair, heart, breasts, vagina and other testosterone sensitive tissues in women.†

Hormone Specific Formulation™ provided by Douglas Laboratories® and formulated by Dr Joseph J Collins, is created to support the optimal function of specific hormones through the use of hormone specific adaptogens, hormone specific agonists and hormone specific functional mimetics. This formulation may be used to as part of a hormone health program with dietary and nutrient support. In addition, this formulation may be used by clinicians as an adjuvant to support optimal hormone health in patients who have been prescribed bioidentical hormone therapies.

FUNCTIONS
TestoQuench™ for Women is a synergistic combination of phytoantiandrogens designed to restore healthy hormone balance by calming and supporting the ideal function of testosterone sensitive tissues. Phytoantiandrogens are a class of phyto-compounds that decrease tissue sensitivity to androgens or decrease androgen activity, predominantly through the action of 5-alpha-reductase inhibition, which decreases conversion of testosterone to the more androgenic dihydrotestosterone. The synergistic combination of specific herbs in TestoQuench™ support important functions associated with optimal testosterone health in women:

• Restore and promote normal, healthy androgen functions†
• Supports healthy blood lipid levels†
• Promotes healthy immune function, supporting inflammation†
• Helps normalize the function of skin, heart, breasts, vagina, brain and other tissues sensitive to testosterone†
• Supports healthy brain function, memory, and cognition, enhances mood while promoting tranquility†

INDICATIONS
TestoQuench for Women may be a useful dietary adjunct for women wishing to support testosterone sensitive tissues and healthy testosterone levels.

FORMULA (#201352)
Serving size: …………………… 2 v.caps…………… 4 v.caps
Herbal Proprietary Blend ……. 1,440 mg………….. 2,880 mg
Paeonia root Extract (Paeonia lactiflora, standardized to 10% paeoniflorin), Fenugreek seed (Trigonella foenum-graecum), Saw Palmetto berry Extract (Serenoa repens, standardized to 25% fatty acids), Fennel seed (Foeniculum vulgare), Pygeum africanum Extract (bark, standardized to 2.5% sterols), Holy Basil (Ocimum sanctum, leaf), Nettle leaf Extract (Urtica dioica, standardized to 1% silica), Vitex-agnus castus (Chastetree berry, standardized to 0.5% agnuside and 0.4% aucubin)
